

The letter below from Morton Thiokol, Chemical Division delineates the sections of the Federal Register under which the Nylon 11 used by Bray complies for use in processing, handling, and food packing. In effect, the gray Nylon 11 used on Bray ductile iron discs meets the requirements of the FDA for use in contact with sanitary service medias.

Mr. Frank Raymond  
Bray International  
15000 N.W. Freeway  
Houston, TX. 77040

Dear Mr. Raymond:

In response to your request through Mr. George Franklin III. I am pleased to advise that Corvel® 70-7001 Gray contains all ingredients which are included under Sections 175.300, 177.150, 178.2010 and part 182 of the Federal Register. These sections list items that may be safely used on articles intended for use in processing, handling and packaging food.

If we can be of further service, please do not hesitate to contact Mr. Franklin or myself.

Sincerely,  
Terry A. Brown  
Market Manager
