### IMPORTANT PLEASE READ

To be sold in the State of California for the purpose of conveying potable water, Galvanized Malleable Fittings must be 3rd party certified to California's Low Lead Bill AB1953. Products that are not certified to AB1953 cannot be sold in the State of California for the purpose of conveying Potable Water.

Morrill Industries, upon request will provide Galvanized Malleable Fittings in accordance with AB1953.

A portion of our Galvanized Malleable Fittings is already in compliance, parts will be indicated with a "No Lead" in the description of the part.
